Through each song, Trisha Alicia proves that she can make compelling, exciting music. She's a Chemical Engineer turned songwriter who knits words and melodies to share the story of her life. Signed to INDIEBLU MUSIC, her current release "YOU'RE WITH ME," pairs her lyrics with GRAMMY NOMINATED producer Keith Rogers, for a huge win. YOU'RE WITH ME is an ear-worm, reminding the listener that no matter the challenge, God is with them and the mountain is worth the climb.
